

How well
do we know
the child?

There's a lot we know.
Let's complete the
picture with HOPES.

The Compass Team, 66/2238, A3 II Floor,
Pullepady Road, Cochin-682018

HOPES can help each child achieve his and her true potential.

HOPES (Holistic Programme for Evaluation of Students) is a scientifically developed assessment programme that identifies challenges faced by each student - academic, emotional, behavioural and physical - and prescribes and implements remedial measures to address them. The entire programme is carried out at the school and involves the teachers and parents for a holistic assessment and remedy.
